# My Autobiographical Poem

## 5F Li Cheuk Lam

Hi! My name is Alanis.

Tall, polite, thin and good to smell.

Jessie and Allen are my mum and dad.

I love dogs and cats. I also love my parents.

I feel tired but great and excited.

I like riding on a roller coaster, running in a race and playing with my family.

I cannot live without my dolls, my comforter to sleep in and some snacks at home.

Love is what I give to my parents.

I fear cockroaches, spiders and ghosts.

I like to see baby sharks and penguins.  
I would like to have a hundred dollars.

I enjoy sleeping, eating candy and singing.

I like to wear my skirts, make up with my eyeshadow and lipstick and wear my grandma's old high heels.

I hope Covid-19 will go one day .

Li.

## 5L Shao Yat Tung Doris

Hi! My name is Doris. You're right. That's D-o-r-i-s, Doris!

Honest, hardworking and helpful! That's who I am!

I don't have any brothers or sisters. My mum is Gillian and my dad is Hugo.

I love my toy Shrek, my blanket and my chair!

I feel energetic, excited and cheerful all the time.

I enjoy riding my bike. It is really cool!

I cannot live without my book, sofa and mum.

I give my mum an angry face and my dad an annoying face.

I fear my teacher's red pen and my mum's smart phone. They are really scary!

I would love to see the Great Barrier Reef in Australia. That will be fantastic.

I am so happy when I am reading my book and watching movies with my dad.

I like my headband, that is just black. I think it is cool and energetic!

One day I will be a vet. Then I will be able to see many cute animals all the time!

My surname is 'Shao' and I like it so much!

# An Article about My Teacher

## Mr. Rayve Never Fails to Make People Feel Better and Smile

6L Chan Nga Yiu Ellie

Mr. Rayve is my Creative Writing teacher. He has dark hair and a sharp nose. Despite him having a mean face, he actually has a kind heart for everyone inside.

For example, last night (on 19th September), a woman sitting at a table next to Mr. Rayve at a restaurant had her bag slip off her chair unintentionally. Mr. Rayve saw what happened and rushed over immediately to pick up the bag and returned it to her, or else the bag would have gone missing.

The woman said, 'Thank you for your help. I would've lost my designer handbag if you hadn't picked up the bag immediately after it slipped off. You are such a kind and generous person.'

Mr. Rayve is really wonderful, generous and outstanding. He never lets people down.

I think all of us should learn from him. Let's smile, bring happiness to people and be a generous, kind-hearted person just like Mr. Rayve, shall we?

## Mr. Rayve Saved the Day!

6L Yuen Ysz Yuen Jerry

Mr. Rayve is my English Creative Writing teacher. He is good at English writing and speaking.

One day, he saw someone who needed help.

'When I was walking on a street, I saw a guy stole a woman's wallet and ran away. The woman chased the robber but he was too fast. When the robber ran near me, I stopped him by pulling him. The robber was caught and the woman got back her wallet,' He said.

Mr. Rayve is a helpful and brave person. He helped a lot of people.

All of us should learn from Mr. Rayve. Let's help people and do more good deeds!

# ***Alien Diplomacy!***

## **6L Chan Nga Yiu Ellie**

Dear Diary,

It has been a few months since the day when the aliens set foot on Earth. A few days ago, the aliens announced that they would share some of their technology with us and their gadgets would be sold to the public worldwide.

The gadgets they gave us are called 'Magic Beanstalk', 'Memory Stick' and 'Auto-cooker'. Although the names for these tools are a bit childish, their power should not be underestimated.

'Magic Beanstalk' is a beanstalk-shaped alien food, which can be eaten to make your memory storage larger while 'Memory Stick' is a stick which can make you remember things more correctly and accurately by just using the stick to lightly hit your head around 3 times. 'Auto-cooker' is a tiny little machine, which can help you produce a delicious and healthy meal instantly. It is suitable for people who are very busy doing their work.

Humans have treated the aliens nicely ever since they arrived. So have the aliens. I hope we can keep peace with the aliens and befriend them. Humans seem to cherish these gadgets very much as if they were a blessing from gods. The aliens seem very proud of their work. They look ahead to the day of peace between human and alien.

## **6L Lee Chin Yuet Joy**

Dear Diary,

Aliens have landed in Hong Kong! I am the first one who encountered them. I thought the appearance of the aliens was very funny.

The aliens were kind. They wanted to share their technology with us. They gave us a 'Super Robot'. The Super Robot can walk, jump, fly, talk, write, fix things... It even can think by itself!

The aliens told us how to use the robot. First, we need to turn it on. Next, we need to say, 'Robot.' Then, the robot will talk to you. If you say, 'Fly over that tree!', It will think fast by itself and follow your instruction. The aliens had advanced technology. They were amazing!

I had put the robot at my home for three days. I took it to my school since it was too big. It helped the teacher to check our homework faster.

The aliens helped us a lot, so we shared our food with them. They thought our food was better than the food they ate on their planet.

The aliens have stayed in Hong Kong for one month. We got along well. Finally, we thanked the aliens for their gifts and they left.

## 6L Ngan Eithan

Dear Diary,

After I got up in the morning, I learnt this news: there were people who spotted 300 UFOs in total. The United Nations was coping with the UFO arrival.

3 hours later, I turned on the TV. The Emergency Broadcast System announced, 'This is the Emergency Broadcast System. Aliens are invading the Earth. Please seek shelter immediately.'

Then we looked out of windows and saw the aliens were friendly. Everything was normal (except there were friendly aliens). I talked with them and surprisingly, they spoke English! (I'm shocked.)

I got onboard their comfortable, big UFO and guided them to the Ocean. We had fun there. I taught them knowledge about different animals (e. g. pandas, penguins) inside Ocean Park. We also played at the water park too.

They gave us a Shrink 'n Grow ray gun (Shrink and Grow ray gun) and they told us to use it wisely if we don't want to create problems. They also gave us a pen-sized thing. They told us it is a phone for communicating with them. It can project a screen onto the wall.

We thanked them and they left the Earth. They sent us a message: we will come if we are on holiday.

With the phone the aliens gave us, I tell them what happens every day.

Maybe someday they will visit again!

## 6L Yuen Ysz Yuen Jerry

Dear Diary,

One day, when I was walking on a busy street in Hong Kong, I saw a thing flying in the sky quickly. 'What was that?' I thought. Curiously, I followed the thing. Suddenly, the thing stopped in mid-air and was going down. I stared at it closely and it seemed like a UFO! The UFO landed slowly in a square. Many aliens stepped out of the UFO. They had long faces and long arms which look like tentacles. How scary! Some people ran away screaming and the aliens said, 'Calm down! We come here for peace. We want to share our technology with you. For example, we can help you build spaceships!'

After that day, the news about aliens spread really fast. All presidents from different countries met the aliens. They signed agreements on securing universal peace. The aliens helped to make a lot of technology like spaceships and teleporters. I even made friends with them. I took them to parks and restaurants. Humans treat them kindly and we all had a great time. I think aliens aren't that scary at all!

# *The Story of a Water Drop*

## **6L Chan Nga Yiu Ellie**

Once upon a time, there was a droplet who was named Water Drop. The little droplet always admired the clouds up in the sky and wanted to be like them when it grew up. Luckily for him, nature decided to grant his wish. Since then, everything had changed for Water Drop.

Water Drop woke up and realised that it evaporated to join many different particles in the air. After an hour, they were going up the air and condensed into a cloud. Water Drop was full of joy and was growing bigger like the other clouds until something was leaking underneath it. That's how precipitation starts. Raindrops were falling down to land. 'Oh no! I forgot to wear my diapers!' The droplet freaked out. It rushed over a vast ocean to let the rain fall down so that people wouldn't get affected by its urine. And that's how the cycle is repeated over and over again...

## **6L Yuen Ysz Yuen Jerry**

It was a hot sunny day. A drop called Dropy was swimming in a river. Suddenly, a man fetched him and his friends with a bucket. 'Oh no, we are trapped!' He thought. After a few hours, the shining sun was making the water hotter and hotter. And Dropy realized that he was not water anymore. He was now vapour and rising into the sky. 'I am evaporating, wow! I can finally escape.' He shouted as he went through a cloud. When he got out of it, he realized he and his friends became a cloud too. Just then, he felt that he was heavier and 'bam', the cloud burst. He turned back into a drop and fell down towards the ground.

'This must be precipitation!' He thought. And then, he plopped back into a river flowing to the sea.

# A Message Home

## SL Hung Ching Lam

To: Bill Oldwin  
From: Warren  
Subject: The New Planet's Condition

How are you?

I have arrived on the planet. As predicted, it is very similar to Earth. The creatures agreed to share the planet with us.

We have to respect the planet. We have to be helpful and kind to them. We have to share food with them.

We mustn't kill them. We mustn't pollute and destroy the planet.

I hope to see you on the planet soon!

## SL Leung Ching Hang

To: Head of NASA, Sir Senseed Fedway  
From: Leung Ching Hang  
Subject: News from Kamforlifomna

Dear Sir Senseed Fedway,

I am safe now on Kamforlifomna, the new planet. It has a beautiful scenery, and there are also some aliens.

To gain trust from them, we must respect them. We should give them some food because there's flooding nearby.

We must not harm or kill the aliens even if they look ugly. We must not take over their home either, or they will attack us.

Just try to give them presents like food, and never fight with them. We should be good people!

Best,  
Leung Ching Hang

## 5L Shao Yat Tung Doris

To: My fellows on Earth

From: Shao Yat Tung, Doris

Subject: A Message from Kaerlian

Dear my fellows on Earth,

I arrived on the new planet Kaerlian a few days ago. I am now safe here. The aliens have already agreed to share their planet with us humans. But there are a few rules:

Things we need to do:

1. We need to be friendly with them to show that we mean no harm;
2. We have to let the aliens gradually build up trust in us by respecting them;
3. We need to help them if they are helpless.

Things we mustn't do:

1. We must not hurt or kill them;
2. We must not start war with the aliens just for more places to live in;
3. We must not disrespect them even if we disagree with their opinions.

These are all the rules we should pay attention to. I hope we will have a good place to live in and will be good friends with the aliens.

Best,  
Doris

# *A Letter to Mr. and Mrs. Alien*

## **6L Lee Chin Yuet Joy**

Dear Mr. and Mrs. Alien,

Hi!

My name is Joy. I am one of the kids on Earth. I always go to the park, so I can tell you all the rules of the park.

In the park, we need to keep the environment clean. For example, don't drop litter, don't spit... We also don't go cycling or roller-skating.

There are still more rules! Don't climb trees, don't smoke, don't feed birds, don't pick flowers, don't bring dogs in...

These are all the rules of the park. I hope you will have fun at this Christmas!

Best,  
Joy

## **6L Ngan Eithan**

Dear Mr. and Mrs. Alien,

Hello, welcome to Earth. I will tell you the rules of staying in the swimming pool.

First, you cannot run because you may slip and fall down. Next, if you feel ill, you should not go into the pool since people cannot wear masks in it. You may spread diseases and pollute it. In addition, you should stay away from the slide so that you will not get bumped by people sliding down. At last, you should not wee or poop. Otherwise you will cause panic in the pool, unless you like chaos.

And I can guide you to a swimming pool.

Please write back.

Cheers,  
Your Earth friend  
Eithan

## 6L Yuen Ysz Yuen Jerry

Dear Mr. and Mrs. Alien,

I heard that you are going to visit Earth but you don't know the rules. Let me tell you the rules of the library.

First, you shouldn't talk loudly when people are reading. Second, you cannot eat or drink in the library because of the hygiene problems. Third, don't litter or spit on the ground in the library because that's impolite to do so. Also, you need to wear masks anywhere outside.

Please follow these rules and have a good holiday!

Best wishes,  
Jerry

## *A Letter to Simon*

### 5L Leung Ching Hang

Dear Simon,

I have already learnt that you lied to the villagers about a wolf attacking us. Lying is very bad. It hurts you and other people.

I lied to my mum once. I told her that I finished my homework, but in fact I didn't finish it. Later when my mum knew the truth, both of us were very upset.

Did you say sorry? And don't tell lies anymore!

With love,  
Elizabeth Leung

# ***An Acrostic Poem about Respect***

## **6H Shum Ming Yu Marcus**

Respect people when they talk to you  
Entertain people when they need help  
Say 'thank you'  
Protect people in need  
Everyone needs to be kind  
Cannot be disrespectful  
Talk to people if they have any problems

## **6L Chan Hoi Ying**

Respond to people when they talk to you  
Entertain people  
Speak to people politely  
Pay attention to teachers  
Eat quietly  
Come to school on time  
Thank people who helped you

## **6L Chung Him Yau Illy**

Respond to people when they talk to you  
Ears need to listen  
Speak politely  
Prepare to speak  
Explain your sentences when people don't understand  
Care for people in need  
Teach people when they don't know how to do

## **6L Ngan Eithan**

React to people when they talk to you  
Entertain people when they are sad  
Say thank you when someone helps you  
Prove that you'll not lie to people  
Everyone needs to be friendly  
Care for others like they were your family members  
Then listen to everyone
